Trade-marks Journal

Vol. 63 No. 3201

General Information

The *Trade-marks Journal* is published every week in compliance with Rule 15 of the *Trade-marks Regulations*. The Registrar of Trade-marks cannot guarantee the accuracy of this publication, nor assume any responsibility for errors or omissions or the consequence of these. All mail relating to trademarks should be addressed to the Registrar of Trade-marks, 50 Victoria Street, Gatineau, Quebec, Canada, K1A 0C9.

Electronic *Trade-marks Journal*

The *Trade-marks Journal* is available in electronic form on the CIPO web site (http://cipo.gc.ca). The *Journal* is available in PDF format and can be downloaded free of charge, viewed and printed with Adobe Acrobat Reader. The electronic form of the *Trade-marks Journal* is the official version.

The *Journal* is also available in a printable HTML format as an alternate official version, and contains a search function to narrow and customize the *Journal* content to user defined areas of interest.

Official Languages

The *Journal* is available in English and in French. The application details are displayed based on the language of the application. If the language of the application is English, the goods, services, or other text and description appearing in the English version of the Journal are in the language filed by the applicant. If the language of the application is French, the goods, services, or other text and description appearing in the English version of the Journal have been translated. Any registration resulting from the application will be restricted to these goods or services described therein.

Filing Dates

The filing date of each trademark application advertised in the *Trade-marks Journal*, including those to extend the statement of goods or services of an existing registration, is shown next to the application number in the sequence of Year, Month and Day.

Nice Classification

The *Journal* includes reference to the Nice classification when the goods or services of an application have been grouped and classed by the applicant in accordance with the current version and edition of the Nice Classification.

Opposition

Any person who has a valid ground of opposition (see section 38 of the *Trade-marks Act* for the grounds of opposition) to any application for registration of a trademark or to any application for registration of a trademark extending the statement of goods or services advertised in this *Trade-marks Journal* may file a statement of opposition with the Registrar of Trade-marks within two months from the date of issue of this publication. The prescribed fee must accompany the statement of opposition.

Enzymes used in DNA removal in purification processes of biological molecules; test reagent diagnosis kits consisting of diagnostic reagents for diagnostic purposes or research purposes; reagents and assays for conducting polymerase chain reactions for detecting nucleic acids for scientific purposes or research purposes; filters and centrifuges for purifying and separating off nucleic acids for scientific purposes or research purposes, or for electrophoresis; chemicals and reagents for medical and veterinary purposes; test reagent diagnosis kits consisting of diagnostic reagents for clinical purposes or medical laboratories; reagents and assays for microbiological analysis, namely, for conducting polymerase chain reactions for detecting nucleic acids for clinical purposes or medical laboratories; filters and centrifuges for purifying and separating off nucleic acids for clinical purposes or medical laboratories, filters for use in diagnostics; microarrays, containers namely, metal containers for holding and transporting flexible bags for biological, medical or pharmaceutical fluids; transportable buildings of metal namely, clean room systems for biotechnical applications; mixing machines namely, rotating or reciprocating blades for mixing liquid solutions in a bioreactor; vibrating bioreactors for scientific research, medical and pharmaceutical purposes; bioreactors with internal mixing vanes; equipment for welding namely, electric welders for sealing plastic hoses; centrifuges; vessel holders for centrifuges, centrifuge beakers; centrifuge chambers; housings for holding membrane filters; electric welder for sterile connection and separation of plastic vessels, namely, plastic hoses, tubes, bags and containers; scales of all kinds namely, precision laboratory scales and balances and parts thereof; mass comparators; piezoelectric load cells; mechanical, electric and electronic components for scales and weighing installations; electric metal detectors; electronic flow meters and pressure sensors for testing air and liquid filters; checking (supervision) apparatus and instruments namely, microscopes, spectrometers, for fluorescence and NIR spectra and light meters for measuring turbidity; probes for scientific purposes namely, sensors; refractometers; pH meters, hyrdometers for determining the moisture content of substances, measuring apparatus operating according to the principle of high-frequency technology namely, microwave resonance technology, measuring apparatus for determining enzymatic reactions, electrochemical measuring apparatus, conductivity measuring apparatus, apparatus for determining biomass, manometers and thermometers, ultrasonic flow meters for determining flow; membrane filters for airborne germs; stainless steel containers and casings for filtration units; scientific apparatus, instruments and equipment for producing medical and pharmaceutical preparations and for the treatment of living organisms namely, fermenters, mechanical shakers, homogenizers, freeze-drying installations, electrofusion and transfection apparatus, electrophoresis apparatus, thermostats and refrigerators; computer peripheral devices, namely, printers, monitors, devices for moving the cursor namely, mouse, trackball, computer add-on memory cards and chip card readers; test weights; computer software for controlling apparatus, equipment and installations in the field of bioreactors and laboratory incubators; processes and for chemometric applications; disposable plastic bags for the low temperature control of biopharmaceutical materials, protective containers and frames for holding disposable containers for the low temperature control of biopharmaceutical materials, thermometers for the low temperature control of biopharmaceutical materials in disposable containers; storage containers for disposable containers for the low temperature control of biopharmaceutical materials; apparatus for the cultivation of cell cultures namely, incubators, bioreactors, culture vessels and plastic bags for the cultivation of cells; plastic bags, not for medical purposes, namely for the cultivation of cells; cell culture vessels having sensors; laboratory vessels and for cultivating, incubating, staining and analyzing biological materials, namely, microorganisms, cells and tissue; laboratory shakers; platforms for laboratory shakers having measuring stations for capturing physical data and having data interfaces for exchanging data with external apparatus; laboratory centrifuges; vessel holders for laboratory centrifuges, laboratory centrifuge beakers; laboratory centrifuge chambers for mixing biopharmaceutical media by means of vibration, rotation and undulation; pipettes for single use; bioreactors with communicating connections, namely, hoses, pipes, bags, containers and filters for pharmaceutical or biotechnology applications; pipettes, multi-channel pipettes, pipetting aids, pipette tips, filters for use in pipettes or pipette tips; pipette holders; charging stations for pipettes; syringes for transferring solutions to and from pipettes for laboratory purposes; stopcock valves being attachments for containers; laboratory equipment namely, incubators; laboratory equipment namely, microtiter plates; microplate readers for reading microtiter plates, medical diagnostic aids, namely electrophoresis cellulose acetate films, cellulose nitrate filters for electroblotting, polyamide films for DNA binding, culture medium holders, nutrient pads, membranes for detecting antibodies, detecting antigens and purifying antibodies; diagnostic filter membranes; membrane filters for use in the medical sector; beakers, flasks, bottles, tanks and barrels for medical, diagnostic, chemical, biological and laboratory purposes; flexible plastic bags for biological, medical or pharmaceutical fluids, pouches for medical purposes, namely for the cultivation of cells; plastic films for medical purposes, filter modules namely, cross-flow filter cassettes, filter capsules, filter candles, filter winding modules, membranes, membrane filters, membrane adsorbers, adsorbers and filter nonwovens, all the aforesaid goods being parts for filter systems or being stand-alone filters for treating water and for treating solutions in the pharmaceutical, medical and laboratory sectors, electrodeionizer for the deionization of water and for obtaining ultrapure water, and parts for the aforesaid electrodeionizer; depyrogenation ovens and tunnels for the depyrogenation of solutions; beakers, flasks, bottles, tanks and barrels having temperature regulators for the low temperature control of biopharmaceutical materials; (2) Ore treating machines; Mineworking machines, namely stone crushers, excavators, mine borers ; Mineral separation jigs; Machines for removing mineral impurities; Haulage apparatus for use in mineworking namely ore hauling machines, steam driver hauling machines, conveyor bands, lifting apparatus, namely hoists, tail lifts, lifting platforms, elevators; Cargo handling machines and apparatus for loading and unloading, namely loading and unloading machines; Hammers for civil engineering, namely engine driven hammers; Hammers for mining, namely engine driven hammers ; Hammers for metal processing, namely engine driven hammers; Eroding knives as parts of machines; Plants for the treatment of coal and ores, namely crushing machines for industrial purposes; Plants for the reduction of ores and minerals, namely screening plants; Plants, namely machines to treat minerals and coals; Material sorting machines for industrial use; Disintegrators

for chemical processing; Machines for pelletizing; Direct reduction iron manufacturing machines, catalytic; Oxygen converters for the production of steel; Metal foundry machines; Injector for injecting oxygen and fuel as parts of machines; Vacuum degassing plants; Vacuum oxygen decarburization plants; Machines for pneumatic transporting and injecting carbon and lime as parts of machines; Electric furnaces for slag door cleaning and maintenance; electric furnaces for waste and fumes disposals; Waste disposal machines; Air filtering units for removing dust, smoke and allergens from the air; dust extractors; dust collectors; Plants, namely machines for treating solid, liquid and gaseous industrial and civil wastes; Machines to treat solid wastes; Slag granulation installations for blast furnaces; Continuous casting machines for billets/blooms/ near net shape/ thick-medium-thin slabs; Casting machines for curved and rectilinear ingot molds; Casting machines for horizontal ingot molds; Casting machines on wheels; Ingot moulds as parts of machines; Ladle supports for casting machines; Oscillators for casting machine moulds; Roller guides and secondary cooling for casting machines; Straighteners for casting machines; Withdrawal assemblies for casting machines, power operated; Shears; High-speed billet casters; Highspeed slab casters; Endless casting and rolling plants; Metal rolling stands; Hot and cold rolling stands as parts of machines; Rolling mills; Housings for rollers as parts of machines; Machine parts namely hydro dynamic bearings for rolling mills; Thin slab rolling mills; Hot strip mills ; Plate mills; Steckel mills; Tandem cold mills; Reversing cold mills; Hot and cold skin pass mills; Temper mills; Heavy/medium/light section and rail rolling mills; High speed wire rod rolling mills; High speed bar mills; Special steel bar and rod mills; Bar and wire rod rolling mills; Slitting machines; Laying heads for wire; Endless welding rolling plant; Welding machines for endless rolling plants; Machines for pickling steel strip; Annealing machines; Washing machines for industrial plants; Floor cleaning machines; air cleaning units; Steel strip coating machines; Painting machines; Air knives in the nature of pneumatic knives; Winders for mechanical wire and accessories; Reels as parts of machines; Winding machines for wires and coils; Mechanical wire winders; Unwinding machines for wires and coils; Spooling machines for bar coiling; Sheafbinding machines; Packing machines; Packaging machines for metals; Load manipulators, packagers and folders for manufactured or semi-finished products; Machines for packing and binding metal profiles ; Stacking machines; electric and pneumatic hoists; wire hoists; Capstans in the nature of winding machines for metal wire; Elevating apparatus, namely, hoists; Conveyor machines; Cranes; Power operated lifts; Power operated conveyor belts; Power operated roller conveyors; Conveyors for industrial transport operations; Conveyor belts for machines; Forging and extrusion presses; Power operated mechanical presses; Wire extruders; Metal extruding machines; Plastic extruding machines; Extrusion presses; Swaging machines; Forging machines; Metal drawing machines; Cold wire drawing machines; Cold drawing machines; Machines for surface finishing of metal; Bar-to-bar drawing benches for bars and tubular products; Machines suitable for detecting and eliminating surface defects on cast and rolled metal products; Vertical turning machines; Lathes for metalworking; Reeling and centerless grinding machines; Circular saws; Ingot milling machines; Machines and parts thereof for plants to grind metals; Straighteners for manufacturing billets/bars/ wires/rails; Metal straightening machines; Cutting machines for metalworking; Electric shears; Shearing machines for metalworking; Pneumatic shears; Cutting machines for metalworking; High speed cropping shears for wire rod mills; Seamless tube hot rolling plants; Supersonic waves welding machines; Electron beam welding machines; Gas welding machines; Electric welding machines; Finishing machines for steel seamless tubes; Retained mandrel mills; Tube sizing and stretch reducing mills; Rail-laying machines; Railroad constructing machines; Machines to fasten and secure metal rails; Tamping machines; Power operated cutters for metal rails; Road making machines; Lathes as machine tools; Tables for machines; Industrial robots; Milling machines; Machine tools for the metalworking industry; Driving mechanical motors other than for land vehicles ; Dynamos; Armature winding machines and stator winding machines; Machines for the production of metallic spheres; Servo motors other than for vehicles; Shredder machine for metallic scrap; Electric hammers; Pressure regulators as parts of machines; Electric motors other than for land vehicles; Material handling machines namely palletizers; Regulators being parts of machines for electrical motors and generators; Heat exchangers as parts of machines; Inspection and conditioning equipment for cast and rolled products in the nature of electrical eddy current test equipment, electrical eddy current test probes, magna flow leakage detectors, rotating head ultrasonic scanners, phase array equipment, namely ultrasonic inspection systems comprised of ultrasonic sensors for industrial non-destructive testing; Holders for electric coils; Electric transformers; Electric regulating apparatus in the nature of voltage regulators for electric power; Electric control panels; Electric installations for the remote control of industrial operation; Integrated circuits; Electric distribution boxes; Electric distribution consoles; Electric relays; Electric indicators boards and panels; Panels for electric motor and generator control circuits; Automation relay panels; Factory automation software and hardware for integrating manufacturing machine operations, tracking problems and generating production reports; Electronic relays for frequency and current threshold and phase readers; Electric transformers and servo-machinery for process machines; Electrical control panels; Panels with electrical relays for automation; Descriptive electrical circuits; Electrical transformers; Installations for the distribution of electrical power, namely, electrical power distribution units; Mechanisms for counter-operated apparatus, namely point-of-sale terminals; Elevator operating apparatus, namely, electronic controller to manage the power, movement and functions of an elevator; Electrical substations; Photocells; Magnetic surveying machines; Seismic wave surveying machines; Speed measuring devices, namely speed indicators, laser speed detectors; devices for measuring distance; tape measures; Electricity measuring instruments, namely electricity meters or electricity meter readers; Volumetric measuring devices, namely derived-unit measuring apparatus; Fluid level measuring apparatus, namely contact or non-contact ultrasonic sensors; Capacitance level sensors; Capacity measuring apparatus, namely instruments for measuring charge; Pressure measuring apparatus namely instruments for measuring the pressure in a machine tool, pressure gauges; Fuel gauges; Pressure gauges; Temperature gauges, namely thermometers; Physical and chemical measurers and indicators, namely particle counters for air quality measurement, electromagnetic apparatus used to measure magnetic fields, namely, magnetometers; Luminous and electric magnetic radiation detectors and indicators; Electronic sensors for measuring and indicating physical and chemical values; Luminous or electromagnetic radiation detectors; Industrial photoelectric cells; Electronic relays for current/frequency/and phase detection; Testing apparatus not for medical purposes for testing printed circuit boards and testing machine parts; Science diagnostic apparatus not for medical purposes for research use, namely laser and/or X-rays producing apparatus and installations, namely, x-ray CT scanners; Chemical diagnostic apparatus not for medical purposes, namely, for gas emissions analysis, namely gas analyzers and systems comprised of residual gas analyzers for industrial, environmental and process emissions; Contact-free optical gauges; Computer software programs for controlling and regulating continuous casting machines; Control and regulating apparatus or equipment for controlling/regulating/and recording data of continuous casting machines namely control panels/computers/and computer software; Computer software programs for controlling and regulating rolling mill plants; Control and regulating apparatus or equipment for controlling/regulating/and recording data of rolling mill plants namely control panels/ computers/and computer software; Lighting installations, namely, electrical control systems for lighting systems; light switches; lighting control panels and lighting fixtures; air conditioners; locally induced air-conditioners for industrial purposes; air conditioning installations for industrial purposes; air purifying units; air cleaning units; air filtering units for removing dust, smoke and allergens from the air; industrial air purifiers; Gas scrubbers; Gas scrubbers as parts of gas installations; ventilation ducts; air conditioning ducts; air filters for air conditioning units; ducts of metal for air conditioning installations; electrical control systems for heating and air conditioning systems; evaporators for air conditioners; fans for air conditioning units; filters for air conditioners; hoses for air conditioners; separators for the cleaning and purification of air; Cooling fans being parts of vehicle air conditioning systems; Cooling modules being parts of vehicle air conditioning systems; Fume eliminators in metallurgical factories; Cooling plates; Plants, namely machines to purify gases and dusts; Plants, namely machines to treat liquid and gaseous industrial wastes; Air separation machines; Dry and wet fume collectors for industrial use; Industrial furnaces; Blast furnaces; Electrical furnaces; Pre-heating furnaces; Industrial cooking ovens; Ladle metallurgy furnaces; Melting and refining furnaces; Coolers for furnaces; Gas burners; Liquid and gas burners; Gas and liquid hydrocarbon burners; Scrap preheating units; Treatment furnaces; Cooling beds for cast products; Cooling beds for rolled products; Purification installations for sewage; water filtering units for industrial use; water distillation units; Gas boilers; Water cooling appliances and installations, namely, water cooling towers; Water treatment machines, namely, water filtration units ; Dampers as control devices for heating to regulate the flow of air; Cooling beds for rolled or cast products; Units to purify gases and remove dust.

SERVICES

(1) Civil building construction; Industrial building construction; Technological concrete foundation contractor construction services; Erection and installation of plants and machinery for metal industry; Remote and on-site assistance services for plant maintenance and repair and installation of spare parts for metal industry; Design and development of computer hardware and software; Providing information relating to construction design, tool design, mold design; Design of machinery ; Design of parts of machines; Design of machines and apparatus; Design of heating and cooling apparatus installation; Industrial design; New product design; Product design; Development of computer programs; Environmental testing of exhaust emissions; Research on construction technology; research pertaining to civil engineering, mechanical engineering, structural engineering and chemical engineering; Research relating to mechanical engineering; Non-destructive testing services for machine parts, metal castings, metal forgings and rolled products made of metal, namely plates, sheets, bands, foils, rods and wire rods; Inspection of industrial installations; Research and analysis relating to industrial safety; Research in the field of welding; Testing of raw materials; Material testing; Electrical safety research; Testing and research services relating to electricity; Research and development of electronic components; Product failure or testing analysis; Product testing; Product safety testing; geological surveying; technical surveying; topographic surveying.

(2) Civil building construction; Industrial building construction; Technological concrete foundation contractor construction services; Repair of industrial furnaces/rolling mills/ingot moulds/and continuous casting machines; Repair of data processors; Installation of air and gas compressors; Installation of air pumps; Installation of vacuum pumps; Erection and installation of plants and machinery for metal industry; Remote and on-site assistance services for plant maintenance and repair and installation of spare parts for metal industry; product design consulting services; market analysis and research services; Design and development of computer hardware and software; Architecture; Providing information relating to construction design, tool design, mold design; Design of machinery; Design of parts of machines; Design of machines and apparatus; Design of heating and cooling apparatus installation; Design of generators; Industrial design; New product design; Product design; Development of computer programs; Testing services relating to air purification; Testing or research services relating to anti-pollution; Environmental testing of exhaust emissions; Survey and research of industrial waste; Environmental testing of noise pollution; Surveys of atmosphere; Surveys of water quality; Testing or research on prevention of pollution; Research in the field of environmental protection; Research on construction technology; Evaluation and diagnostic services relating to earthquake-proof design of buildings; research pertaining to civil engineering, mechanical engineering, structural engineering and chemical engineering; Research relating to mechanical engineering; Blasting vibration measurement; Non-destructive testing services for machine parts, metal castings, metal forgings and rolled products made of metal, namely plates, sheets, bands, foils, rods and wire rods; Inspection of industrial installations; Research and analysis relating to industrial safety; Scientific or product research and development for others; Research in the field of welding; Testing of raw materials; Material testing; Electrical safety research; Testing and research services relating to electricity; Research and development of electronic components; Product failure or testing analysis; Product testing; Product safety testing; geological surveying; technical surveying; topographic surveying; Quality control for others; Quality control of manufactured goods for others.
